My dear Mr. Claudet:-

I have your note of the 4th inst., and while I was notified that you had called several times on the telephone, I did not reply for the reason that I had not one minute to spare. I shall have more time this coming week and will arrange an appointment suitable to your time, but as I have another matter to take up with you, namely; the creation of some bank notes in connection with which I want you to meet the General Manager of the Bank of Haiti who will be here, I shall endeavor to fix the appointment so that we can at the same time take care of the matter you tried to telephone me about, and the bank note business as well.

I expect this gentleman here from Washington Tuesday or Wednesday, and upon his arrival will telephone you and make an appointment mutually agreeable.

Yours very truly,

Cher Monsieur Claude,

Pour bien faire ressortir que nous faisons  
tout notre possible afin d'éviter une confusion  
entre nos billets et les banknotes des E.U. je crois

qu'il serait bon de bien préciser que ce sont des gourdes. Au  
lieu de nous contenter de la mention "une gourde" au bas du  
recto, nous pourrions la répéter au haut du verso et mettre  
les chiffres des coins dans la lettre G.

Bien à vous.

New York, May 31, 1916

Dear Mr. Claudet,-

In order to prove that we are doing everything possible to avoid any confusion between our bills and the bank notes of the United States, I think it would be well to show on our bills that these should be in Gourdes. Instead of being content to mention "Une Gourde" at the bottom of the face, we could repeat the same at the top of the face; and furthermore, show it in figures in the corners in the letter "G".

Yours, etc.,

Merci de votre confiance, et reste.

Sir:

With reference to your inquiry at the Division of Latin-American Affairs, on the 18th instant, as to the advisability of beginning immediate work on the engraving of Notes for the National Bank of Haiti, it would seem that, although the Department believes that the differences between the Government of Haiti and the National Bank have now reached a satisfactory settlement, it might prove advisable to await a formal conclusion thereof. The recommendations or cooperation of the Financial Adviser, when appointed under the terms of the Treaty, might likewise prove of value to you.

Dear Sir,-

In accordance with your verbal request at our interview of June 29th, I have the pleasure to submit to you herewith prices to supply bank notes for La Banque Nationale d'Haiti in the following quantities:

To prepare all the necessary engravings and plates for the issue, we will charge \$1,000. U.S. Gold, each denomination.

							at rate per 1000
5,000,000	Notes	or	more,	ordered	at	one	time, of any one denomination, \$ 13.50
1,000,000	"	"	"	"	"	"	15.75
500,000	"	"	"	"	"	"	17.25
100,000	"	"	"	"	"	"	23.75
30,000	"	"	"	"	"	"	30.00

The above prices are F.O.B. New York, freight, insurance and Consular fees additional.

The size of the notes, colors and engravings to be in accordance with model of the One Gourde Note already in your hand for your approbation, subject however to whatever alterations you may wish to make.

Understanding that it will be quite essential for the Bank, when the time has come to receive their final authorization, that these notes should be brought out at the earliest possible date, I beg to make the following suggestion, which would advance the delivery of the notes, when you have finally obtained the authorization to make the issue, between four and five weeks:- that you should give us orders now to proceed with the preparation of all necessary dies, engravings and color work of the One Gourde Notes, leaving out the text of the Law or whatever

you think is liable to be changed; and also that we prepare models for the other denominations that you intend to issue, and after approval, that we proceed with the preparation of the dies, engraving and color work. Your responsibility in case the State Department at Washington should not grant you the authority through their Financial Agent - who I understand is to be appointed shortly - will be limited to \$750. U.S. Gold, per denomination engraved.

Trusting that you will decide favorably in regard to this matter, we beg to remain,

Yours very truly,

Vice President.

## HAITIANS OBTAIN BANK AGREEMENT

State Department Comes to  
Terms with Commission  
as to Its Conduct.

### NEW DIRECTORS CHOSEN

National City Bank Representatives  
Will Have Control of the  
Institution.

Maurice Casenave, President of the Banque Nationale de la République d'Haiti, who arrived from Washington last night, announced that agreement had been reached between the Haitian Commission and the authorities at Washington regarding operation of the bank and that new officers and directors had been elected in accordance with the acquisition by the National City Bank of the German interests in the Haitian concern. Mr. Casenave explained the position of the institution as follows:

"The Banque Nationale de la République d'Haiti is a French institution authorized under a French charter. Its authorized capital is 20,000,000 francs of the par value of 500 francs each. The bank has an exclusive concession running for fifty years from 1910 from the Haitian Government under which it conducts a banking business and in particular performing the function of treasury for the Haitian Government. All the revenues of Haiti are received by the bank, and by the bank disbursed for the account of the Government.

"The bank transacts a general banking business. In order, however, to afford greater advantages to the smaller Haitian merchants in marketing the coffee and other products of the country, the bank is now considering the erection at certain points of first-class warehouses wherein the merchants may store their commodities pending shipment, and obtain from the bank advances thereon enabling them to continue their purchases without the delays which heretofore have existed.

"I am particularly pleased to announce that all the differences which arose in the last two years between the various revolutionary governments of Haiti and the bank have been satisfactorily adjusted. Yesterday at the State Department in Washington the Haitian Commission, which was sent to this country a few months ago to take up with the officials of the State Department and the representatives of the bank the adjudication of all differences, and myself, concluded and signed an agreement of settlement. Under this agreement the bank retains all of the rights and privileges afforded by its concession; the loans made by it to the Government of Haiti are to be repaid out of the customs collections, and the bank and its branches will be the depository of all funds collected by the Receiver of Customs.

The new Board of Directors is headed by Mr. Casenave as President and R. L. Farnham as Vice President, and has these other members: E. Mallet, Regent of the Bank of France; H. Bousquet, M. Cere, former member of the French Chamber of Deputies; P. Girod de Neufville & Co., Paris; Mr. Peirson, Samuel McRoberts, John E. Gardin, and Joseph T. Cosby. Messrs. Farnham, McRoberts, Gardin, and Cosby represent the City Bank. The new board was elected at a meeting in Paris on June 28.

## NATIONAL CITY CO. DIRECTS HAITI BANK

---

### Local Financiers Get Control Formerly Exercised by German Interests.

---

Maurice Casenova, president of the Banque Nationale de la Republique d'Haiti, who has arrived here from Washington, gave out yesterday a statement announcing that all difficulties between the bank and the various revolutionary Governments of Haiti had been adjusted, and giving formal notice of the taking over of control of the bank by National City Bank interests through the National City Company. The bank formerly was under the control of a number of German interests. Samuel McRoberts, John E. Gardin and J. T. Crosby have been elected to the board of directors representing the National City Bank.

"Yesterday at the State Department at Washington," Mr. Casenova announced, "the Haitian Commission, which was sent to this country a few months ago to take up with the officials of the State Department and the representatives of the bank the adjudication of all differences, and myself, concluded and signed an agreement of settlement. Under this agreement the bank retains all of the rights and privileges afforded by its concessions; the loans made by it to the Government of Haiti are to be repaid out of the customs collections and the bank and its branches will be the depository of all funds collected by the receiver of customs.

"With the appointment of Addison T. Ruan as financial adviser of the republic of Haiti, which has just been announced, it is expected that the matter of the retirement of the existing paper and nickel money now in use in Haiti and the substitution of notes issued by the Banque Nationale de la Republique d'Haiti secured by gold deposits will be shortly taken up and a long contemplated monetary reform put into effect."

Dear Sirs,-

This is to confirm your verbal instructions given me this morning by your Mr. Farnham to proceed at once with the preparation of a model for a bank note of Two Gourdes denomination for the above Bank.

This we will do at once and submit it to you, leaving out however the text of the law which is to appear on the back of the note, pending the receipt by you of a letter of instructions from the Banque Nationale d'Haiti, which you expect to receive some time next week.

Understanding that you are in a great hurry for these notes, we will do everything in our power to expedite the matter, and show you the model at the earliest possible date; after the approval of which we shall be in a position to tell you when we could begin delivery.

Thanking you for the order, we beg to remain

My dear Coudert:-

As promised, I will give you the final decision in reference to the Haiti bank note order, which decision was arrived at late last Friday.

The only point in question, as you know, was the text which is to appear on the back of the note and, from the correspondence which was exchanged between the Bank of Haiti and New York, it would seem that the matter was not made quite clear. Therefore, the branch in New York has decided to refer it to the French Board, in Paris, as no one here - not even the President of the Bank, would take the responsibility to pass upon it. I wanted them to give me authorization to proceed with the engravings of the die, leaving out the text pending its final approval, but could not get them to decide. Mr. Santallier, the Managing Director of the home office in Paris, is on his way here and I presume that after he gets here they will decide upon the whole matter without delay.

From what Mr. Farnham tells me it should not take more than about two weeks for them to come to a final decision in the matter.

Trusting that you are having a pleasant vacation, I remain,

Sincerely yours,

5,000,000.	in " " 10 "	= 500,000 "
		<u>8,050,000</u> "

The size and style of these banknotes is to be in accordance with the models submitted by you for the 2 G. and 1 G. notes.

You are to prepare and submit to us models of the 100 G. and 10 G. notes, omitting the text.

The face of the notes when printed is to be in several colors, and the back in one color as follows:

2 Gourdes,	6 Olive
1 "	P 3 Purple
100 "	14 Brown
10 "	75 Red

Each denomination of banknotes will be designated by a letter placed immediately to the left of the number on the banknote, these designations to be as follows :

11/15/16.

"A" for the 2 Gourdes banknotes

"B" " " 1 " "

"C" " " 100 " "

"D" " " 10 " "

and in the event of any further denominations being required, later, these letters will be continued in alphabetical order.

Each denomination of banknotes will be divided in series of Gourdes 1,000,000, numbering same from 000,000. to 999,999. These numbers are to be printed on the face in two colors, diagonally opposite each other, and the color of the numbers is to be as near as possible to the color of the back of the notes, i.e.,

2 Gourdes,	Green
1 "	Blue
100 "	Brown
10 "	Red

The numbers on the banknotes are to be immediately followed by a letter indicating the series, i.e.,

"A" for the first series

"B" for the second series

"C" for the third series,  
etc., etc.,

As soon as the text which is to be placed on the face and back of the banknotes has been decided upon, we will advise you promptly, and in the meantime we shall await the model of the G. 100 and G. 10 notes.

Yours very truly,

Attention Mr. C. G. Baldwin

Agency of the Banque Nationale de la République d'Haiti,  
55 Wall St., New York.

Dear Sir,-

We have your letter of Nov. 15th, confirming our understanding of the order given us for the bank notes to be furnished to your Bank.

Everything is in order and in accordance with what was decided at our interview of the 13th inst., with the following exceptions:-

1st Page 2 of your letter, reading:

"Each denomination of banknotes will be divided in series of Gourdes 1,000,000, numbering same from 000,000 to 999,999. These numbers are to be printed on the face in two colors, etc., etc."

This evidently must be a clerical error, as the numbers will be printed in their respective color, as near as possible to the color of the back of the notes, and not in two colors as you state.

2nd The payments are to be made upon presentation of shipping documents for each shipment, either in New York or Port-au-Prince, as you may decide.

3rd The prices at which the notes will be billed, are to be in accordance with quotation given in our letter of July 5th, 1916, addressed to Mr. O. Scarpa, copy of which was delivered to Mr. Paul Santallier.

We beg to thank you for this order, to which we can assure you we will give our very best attention, and shall await the receipt of the final text and signatures before proceeding further with the final engravings.

In the course of a few days we will submit for your approval the models of the 10 and 100 Gourde Notes.

Yours very truly,

Vice President.

Gentlemen:-

Referring to your letter of this date, with reference to the order for banknotes, we have to say that the paragraph with reference to the numbering and printing of the numbers should have read:

"These numbers are to be printed on the face in two corners, etc., etc.,"

In writing our letter to you of the 15th inst., we omitted to confirm our understanding covering the payments for these banknotes, which are to be made upon presentation of shipping documents for each shipment, either in New York or Port au Prince, at our option.

The price at which these notes will be billed to us will be in accordance with the quotations made by you in your letter to our Mr. Scarpa on July 5, 1916.

We note that the proofs of the 10 G. & 100 G. notes will be submitted to us within a few days.

I authorize you therefore to deliver them to the Bank after you have surcharged them with the following:-

Dear Sirs,-

We beg to confirm our telephone conversation of this morning.

According to our advices from Hayti, there are ten cases of Haytian Bank Notes originally made by us for that Government, being returned to us per Steamer "Hancock", said to be due in Philadelphia on or about Dec. 24th. These notes are coming back to us, as far as we know, for the purpose of having a surcharge put across the face and back, and will then be reshipped to Hayti. We do not know whether the cases have been consigned to us here in New York or not; therefore we would thank you to have your Agent in Philadelphia look into the matter just as soon as he can see a copy of the Hancock's Manifest, and do whatever is necessary to have the cases delivered to us in this city.

Referring to our telephone conversation of this morning, would say that I found the U. S. S. Hancock was at League Island Navy Yard. I paid a visit to her this afternoon and met Captain Edwin Taylor Pollock, her Commander. Captain Pollock told me that he had ten cases of Bank Notes on board for us and the cases were supposed to contain Notes to the value of 500,000 Gourde, and he further said that we could have them by giving him a receipt for the same. The ship is going into dry dock to-morrow morning and it will be Thursday afternoon or Friday before we will be able to have the cases unloaded.

As Captain Pollock believes that his vessel will sail on Monday next, we will have to make arrangements to remove the Notes prior to that time. I would suggest that we give Adams Express Company an order on Captain Pollock for the ten cases and have them take the Notes directly from the ship to our plant in the Bronx. If my suggestion meets with your approval, kindly telegraph or telephone me to-morrow, and I will make arrangements accordingly.

Haiti Bank Notes

We confirm our telephone conversation of yesterday in connection with this matter, and today have to acknowledge receipt of your letter of Jan. 2nd, from which we understand that apparently you will have no trouble in securing these cases for us - provided you are willing to give a receipt for them.

We think your suggestion of allowing the Adams Express Company to take charge of these cases, a good one, and have accordingly telegraphed you as follows:

"We authorize you to give Adams Express Company an order on Captain of U.S.S. Hancock for ten cases Haiti notes to be delivered Bronx Plant. Value eight thousand dollars. Please make sure cases are all intact."

We mention the matter of the cases being intact simply because we thought that since they have been out of our possession for some time, they might have become damaged. As a matter of fact we are not absolutely certain that the notes are being returned in the cases in which we sent them

down. For this reason we think it might be well if you had the cases inspected before they were handed to the Express Company.

\$8000 is the printing value for these ten cases of notes, and we would thank you to inform the Express Company of this fact so they will take all precautions against loss of any kind.

Thanking you for so promptly taking care of this matter for us, we are

We think our letter of the 23rd ult. explains our position, further we wish to point out to you that the Transport "Hancock" is a Government owned and operated vessel. We doubt whether it would be necessary for consignees to make entry for goods arriving on a vessel of this character.

We have taken this matter up with the Customs here and find that no manifest was even filed for any cargo aboard this vessel, and we assume further that when the vessel reached the Navy Yard here the goods were just delivered to consignee.

DATE January 5, 1917.

I to-day saw the ten cases, said to contain Haiti Bank Notes, placed in a van in charge of an employe of the Adams Express Company. They are to be shipped to you to-night, to the plant in the Bronx, and should be received by you either to-morrow, or Monday.

The cases seemed to be in the same condition as in which they were shipped by you.

Messieurs,

En vous accusant réception de votre lettre du 8 janvier courant, je dois vous dire que, selon la dépêche que j'ai reçue du Secrétaire d'Etat des Finances, l'opération de surcharge autorisée par le Gouvernement Haïtien concerne: 1<sup>re</sup> les 500.000 billets de Une gourde (Série A) que vous aviez expédiés à Port-au-Prince et qui vous ont été retournés à cet effet, et 2<sup>e</sup> les 1.500.000 billets de Une gourde (Séries B, C, D) restés en dépôt dans votre établissement.

D'autre part, dans la formule de surcharge qui vous est parvenue de Port-au-Prince et dont vous m'avez envoyé copie, il est dit: "Ce billet à cours légal", mais ce ne peut être qu'une erreur, car la préposition à ne saurait s'expliquer ici. Je pense donc que vous pourriez mettre: "Ce billet a cours....."

Veuillez agréer, Messieurs, mes salutations empressées.

Dear Sirs:-

In replying to your favor of January 8th, I have to state to you that, according to the communication which I have received from the Secretary of Finance, the work of surcharging authorized by the Haitian Government concerns:-  
1st - the 500,000 notes of one gourde(Série A) which you shipped to Port-au-Prince and which were returned to you for this purpose, and 2nd - the 1,500,000 notes of one gourde(Séries B, C, D) which are in your possession.

On the other hand, in the text to be surcharged which was sent you from Port-au-Prince and of which you sent me a copy, it says: "Ce billet à cours légal,"  
<sup>is</sup>  
but this/an error, as the preposition "à" is not express in that way. I believe therefore that you could make the same:- "Ce billet a cours....."

Gentlemen:-

Referring to your letter of Jan. 8th, we note that you have received a letter from the Secretary of Finances of Haiti authorizing the surcharging of the 1,500,000.- of 1 G notes, and enclosing us a copy of the text.

We have been delayed in giving you the instructions to proceed with this surcharging, but hope to be in position to order the work started early next week.

We note that the text is rather lengthy and will leave it to your good judgment as to which side of the note it had better be placed on. We would suggest, however, that it be placed on the back of the note, in view of the fact that if placed on the front it might obscure the numbers.

With reference to the color of ink to be used, this matter was left to the discretion of Mr. Claudet.

We have to acknowledge receipt of your two letters of Jan. 19th and 27th, together with the text and signatures to be made up for typing across the face of the Republic of Haiti One Gourde Note.

We beg to hand you herewith proofs showing this typed surcharge. You will note we have set this up in two ways, of the largest sized type that will not cover the entire face of the note. In each case we have arranged the typed text so as not to cover or obscure either the numbers or the serie. This typing we have shown in both red and blue ink, so that you may judge for yourselves which color is the plainest and most easily read.

We would call your attention to the fact that our text does not show any accents. These we will have to make up special, and will put in after you have made your decision as to which style you like best.

We also beg to hand you herewith proofs of the fac-simile signatures

Dear Sirs,-

We have to acknowledge receipt of your favor of Feb. 5th and have taken good note of your remarks in connection with the surcharging of the 2,000,000 notes of the Republic of Haiti for your Bank. The misunderstanding on our part as to the quantity, was due to the fact that both the Minister in Haiti and their representative in Washington have also referred to the matter as 1,500,000 notes, Serie B, C & D. We take it that at that time it had not been decided to return the 500,000 notes of Serie A to us. However, the matter is now entirely clear and we are going right ahead with the work. We hope to be able to advise you very shortly when the first lot will be ready to ship.

NATIONAL BANK OF HAITI

Mr. Santarlier, Manager of the Bank, is in town, having just arrived from Haiti on his way to France, where he goes because of the illness of his daughter.

He says that it is quite probable, because of the financial situation in Haiti, they will not wish to issue the notes which we surcharged for them because they are redeemable in gold.

The new notes he has been unable to settle the text for but realizes that he must give us plenty of time - at least four months - before beginning delivery. He hopes to get the text for us in the course of two months from now.

In compliance with the request of Mr. Santarlier, we take pleasure in sending you herewith die proofs of the face and backs of the notes of your bank, as follows:- The 1 Gourde, 2 Gourde, 10 Gourde and 100 Gourde.

You will, of course, realize that these being simply die proofs and the work being not at all completed, they do not give a complete idea of what the note will look like.

HAYTI BANK NOTES

Referring to the new notes we are now making for the National Bank of Hayti and in reply to your inquiry of yesterday, I beg to advise you that although Mr. Santarlier, the Manager of the Bank, expected to be back in New York from Paris at this time, I have this morning learned from the New York branch of the Bank that he will not be here until about the 20th of July, as he has been detained in Paris. As you know, he was to settle with the Bank's directors in Paris the exact text to appear on these notes and bring it back with him.

I simply send you this for your information in order that you may know the cause of the delay.

J.Claudet, Esq.,

Vice President.

Dear Sir:-

NATIONAL BANK OF HAITI

In accordance with your instructions I got in touch with Mr. Baldwin of the above bank soon after you left for Brazil. He said he would handle this matter with me.

On December 16th the Secretary of State of the Republic of Haiti wrote us, informing us that the Government had sanctioned the above bank's using series B - C and D - 1,500,000 - One Gourde notes which had been printed by us and were held in our plant. He authorized us to deliver them to the Bank after they had been surcharged with the text which he enclosed.

On December 19th Mr. Baldwin confirmed a telegram to us from Mr. Santalier reading:-

"Inform Claudet necessary to take delivery of  
10 cases notes U.S.S. Hancock due in Philadelphia  
December 24th. Have written fully explaining."

---

Through Mr. Smith in Philadelphia we arranged to have these ten cases containing 500,000 of the Series A. notes sent us by express. We, of course, notified the bank as soon as we received them.

On January 5th we were notified by the Legation of Haiti at Washington that the Consul in New York would supervise the surcharging of the government's notes. We immediately informed the Consul to this effect and our Mr. Sleigh accompanied the Consul to the works on Wednesday January 10th, -and we advised the bank of all of this.

We of course kept in constant touch with Mr. Baldwin here in New York but we could not go ahead with any of this work until January 22nd. Although we went ahead and set up our text and showed proofs to both Mr. Farnham and Mr. Baldwin we did not get a confirming order until February 5th. The final approval of the surcharging was given us on February 10th.

Our first shipment was made on February 19th - 500,000 - One Gourde notes. This shipment was made in 7 trunks and taken down as passenger's baggage.

On February 26th we wrote the bank promising to have the second lot ready on February 28th - the third lot on March 6th - the fourth lot on March 10th.

We were then instructed by Mr. Baldwin of the bank to go ahead with the work of finishing the notes but to make no shipments until advised. We finished up the balance of 1,500,000 notes and put them in boxes ready for shipment. We then advised Mr. Baldwin, who verbally told us that they had received instructions from Mr. Santalier not to ship any more of these notes. Since this time we have communicated with Mr. Baldwin over the telephone a number of times, but he has always told us the same thing - we must wait for the return of Mr. Santalier.

When Mr. Santalier did actually return he advised us that for the time being they would send no more of these notes down there. He also mentioned the fact that the signatures in the surcharging had been put in the wrong place. This, however, was no fault of ours, as we followed the text given us.

As Mr.Santalier was in a great hurry to return to France very little attention was given to this matter - or that of the new notes. I believe he practically made it understood that everything would be held in abeyance until his return from Paris.

We have been advised by the bank for some time past, in fact since last April or May, that Mr.Santalier was expected back shortly.

I purposely did not bill the bank for the surcharging in view of the fact that it looked as though they might never take them and thought that perhaps you would prefer to take the matter up with Mr.Santalier personally upon his return.

The 1,500,000 notes in our factory can be shipped practically at a moments notice.

MEMORANDUM FOR FILES

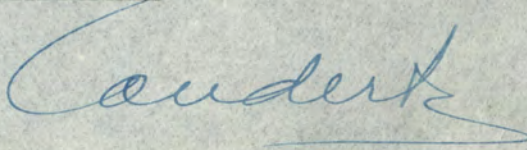

BANK NOTES FOR THE NATIONAL BANK OF THE REPUBLIC  
OF HAITI

---

October 4th, 1918.

During my recent trip to Paris, I had the pleasure of seeing Mr. Paul Santarlier, the Manager of this Bank, several times. On each occasion he told me that he had been unable to get his directors to agree upon the text to be put upon these notes and that he would have to ask us to delay proceeding with the work for a little while longer. There seems to be no doubt in his mind but what we are to complete the work and it is simply a question of time when they will give us instructions to go ahead.

Dear Sirs:-

Referring to the order for bank notes which you confided to us some time ago, as you know we have proceeded with the various engravings, etc. as far as possible and for some time past have been awaiting to receive from you the exact text which you desire to have appear on these notes.

We trust you will fully understand and appreciate that it is our very earnest desire to do everything in our power to serve you and make such arrangements as will best suit your convenience and interests. However, the conditions brought about by the present war are such that we find ourselves compelled to ask you if you cannot possibly arrange to allow us to proceed without further delay to the printing of these notes.

The conditions we refer to are the enormous increases in price of paper, inks, and other materials, as well as in the cost of labor. The increase in cost to us of these various items has been so much that today we are unable to fill the orders of our old customers at the same price we formerly charged and we fear that, at the present rate

of increase in costs, a time will soon arrive when we will be unable to maintain for your goodselves the prices we quoted you at the time the order was placed.

Therefore, in your interests as well as our own, we trust you will be able to allow us to proceed at once toward the completion of this work.

Trusting that you will realize that circumstances force us to place this matter before you in this light, we are, dear sirs,

Yours very truly,

Dear Sirs:-

I beg to confirm our conversation of yesterday, in connection with the matter of delivery of the Republic of Haiti notes which we are now working on and which are to be surcharged for use of the National Bank of Haiti.

We find, after going into this matter most carefully, that we shall be ready to begin delivery of say 100,000 Notes each of both the 1 and 2 Gourdes denomination by March 20th, and complete the entire order of 3,000,000 notes by April 20th.

Dear Sirs:

Attention of the Vice President.

As you know from conversations with our Mr. Farnham, this Bank will soon have to redeem for the account of the Government of Haiti the latter's paper money now outstanding. Some of that money is so deteriorated and tattered that cancellation by perforation alone would either be insufficient to prevent re-circulation or, if efficacious for that purpose, would disintegrate the notes in a way that would interfere with further control by the Government.

As the notes were prepared by your Company, we would ask that you provide us with a liquid with which we may delete the notes in part as they are redeemed, in addition to perforating them slightly.

Banque Nationale de la Republique d'Haiti,

New York.

Dear Sirs:-

We acknowledge receipt of your letter of the 24th inst., regarding the redeeming, for account of the Government of Haiti, of the paper money now outstanding, by destroying it with acid in addition to perforating.

Although we could suggest an acid that would eat the ink off of the paper, it would be a slow process and would not entirely destroy the paper itself. Moreover, the handling of an acid of this kind is always likely to be more or less dangerous. Another feature which we have found very much against destroying notes in this manner is the fact that the notes themselves must be fed into the acid one at a time and kept away from each other while in the acid if the ink is to be taken entirely off each individual note. This, you can well understand, would make the process a very slow one.

We ourselves, in destroying documents, make it a practice to cut up the document and then burn these pieces to ashes. This we consider is not only the quickest way of doing it but the safest in every way.

In the meantime we are taking up the matter of perforating machines

with one or two companies in this country and will advise you of the result of our interviews at a later date.

While writing you on the matter of the Haitien bank notes we are reminded of the fact that we have not as yet received the text for the new form to be used as a surcharge on the notes which we are now printing under your orders, and since we have made a very close promise of delivery for these notes it will be necessary for us to have this text at the earliest possible moment if we are to make our promised deliveries.

RE: DEFINITIVE NOTES

We beg to acknowledge receipt of your favor of May 5th in which you give us the text to be engraved on the Definitive Notes.

We take note of the same and in due course will submit to you a final proof of the engravings showing said text.

In connection with this order we would respectfully call your attention to your letter of November 15, 1916, at which time you gave us the quantity of notes that were to be printed by us. You will observe that the denominations called for therein are 1, 2, 10 and 100 Gourdes Notes. The other day, at our interview, I took note from the Minute Book which you had with you that the denominations of the notes should be for 1, 2, 10 and 20 Gourdes. Will you, therefore, send us a confirmation in writing and also, at the same time, give us the revised quantity wanted of each value. We ask you to do this now in order to arrange to have the plates ready when the time comes for us to proceed with the printing.

Yours very truly,

JC/IW

Vice President.

Before proceeding with the printing of this text we will submit a proof of the same for your final approval.

With regard to delivery - we beg to confirm the telephone conversation had with you this afternoon, advising you that we will positively have ready for shipment on May 22nd - 100,000 of each of the 1 and 2 Gourdes Notes and, possibly double that quantity. You may rest assured, however, that we will do everything in our power to get as many notes off in the first shipment as we can possibly get ready, understanding the urgency of the case, and we will complete the order at the earliest possible date.

Attention of Mr. J. Claudet, Vice President

Gentlemen:

Referring to your letter of May 7th  
Re: the Definitive Notes of the Banque National  
de la Republique d'Haiti, we would advise you  
that at the conferences held in Washington in February last at which the matter  
of the issue by the Banque Nationale de la Republique d'Haiti of the new  
currency of the Republic of Haiti was fully discussed and definitely deter-  
mined on, it was the opinion of all present that the requirements of the  
Government and the people of Haiti would best be served by having a certain  
amount of new gourdes in denominations of 20 gourdes rather than in deno-  
minations of 100 gourdes, as set forth in the letter to you from the Banque  
Nationale de la Republique d'Haiti under date of November 17th, 1916.

The agreement concerning the Currency Reform of the Re-  
public of Haiti as finally concluded at the conferences in Washington as  
above noted, and which agreement since has been accepted and formally ra-  
tified by the Minister of Finance and the Council of State of the Repu-  
blic of Haiti, provides that the Banque Nationale de la Republic d'Haiti  
shall issue its new bank notes as follows:

7,500,000 in denominations of 1 Gourde	7,500,000	July 1920-1509/
5,000,000 in denominations of 2 Gourdes	2,500,000	" " June 1920-15062
5,000,000 in denominations of 10 Gourdes	500,000	" " "
2,500,000 in denominations of 20 Gourdes	125,000	" " "

The foregoing represents exactly the quantity and the  
denominations of the Definitive Notes which are to be issued by the Banque  
National de la Republique d'Haiti in accordance with the Agreement finally  
and officially consummated on the 3rd of May, 1919 and promulgated on the  
7th of May, 1919.

Therefore, you will please be governed accordingly.

Dear Sirs:-

We beg to acknowledge receipt of your favor of May 8th, confirming the quantities of Definitive Notes which will have to be printed from the new engravings that we are now preparing, as follows:-

7,500,000	Gourdes,	in denominations of 1 Gourde,	-	7,500,000	Notes

2,500,000	"	"	"	"20 "	- 125,000 "
MAKING A TOTAL OF					10,625,000 NOTES

and we have entered your order accordingly. We understand that the above is the correct quantity of notes, as per our telephone conversation of this afternoon.

We note from your letter of the 8th inst. that you have retained the specimen of the 1 Gourde note which was enclosed in our letter to you of the same date, as you wish the same for reference. This is quite all right.

Attention of Mr. J. Claudet, Vice President

Gentlemen:

Further to our telephone conversation of this morning concerning the shipment to Port-au-Prince for the Banque Nationale de la Republique d'Haiti of 250,000 One Gourde Notes and 250,000 Two Gourde Notes (ten cases in all) I would advise you that the officials of the Panama Line have informed me that the SS. "GENERAL O. H. ERNST" now at Pier 65 North River, will sail early Saturday morning, May 24th, for Port-au-Prince and they will receive the cases of Gourdes on Friday morning, May 23rd, on the ship. They have requested that the cases be delivered as early as possible on Friday morning as, owing to certain regulations, it will be impossible to receive them after 12 o'clock on that day.

Will you kindly arrange all shipping documents including insurance, and bill us for the same. I understand from the Panama Steamship Line officials that the charge will be, approximately, \$2.25 per case plus one and one half per cent on the value or cost of the goods. I think you should value them as I understand you do, namely, cost plus 10 per cent.

I will see to it that the Manager of the Bank at Port-au-Prince is notified by cable of the shipment in order that he may arrange to receive the Gourdes upon arrival of the steamer there.

Thanking you for your good attention to this matter,

I am

Attention of Mr. J. Claudet, Vice President

Gentlemen:

Referring to our telephonic conversation

of this morning calling attention to an error in the amount of  
gourdes to be printed, we inadvertently copied your figures in  
our letter to you under date of September 4th.

The million Gourdes which you now have  
in hand for execution should be as follows:

500,000 Notes of One Gourde denomination  
250,000 Notes of Two Gourde denomination

This is correct and will eliminate  
the error.

MEMORANDUM FOR FILES

BANQUE NATIONALE DE LA REPUBLIQUE D'HAITI

This afternoon, about 4:30, received message over the phone from Dr. Rowe, Asst. Secretary of the Treasury, Washington, D.C. He asked me how long it would take the company to make a delivery of 5,000,000 Gourdes of the Definitive notes which we have now in preparation.

To this I replied that to furnish these definite notes will require between 5 and 6 months. However, if we could use the old plates with the surcharge, that we have <sup>been</sup> furnishing of late to the bank, we could complete delivery to the value of 5,000,000 Gourdes, in two months.

I also advised him that we had already made a promise to Mr. Farnham, Vice President of the National Bank of Haiti here in New York, to deliver to the bank 1,000,000 Gourdes in one month, that is - 500,000 of 1 Gourdes and 250,000 of 2 Gourdes notes.

Dear Sir:-

Knowing that you are interested that the Banque Nationale de la Republique d'Haiti be furnished with some Gourde notes, we beg to give you herewith the information given this day to Mr. Farnham, Vice President of the Bank.

1st.- If we are to furnish 5,000,000 Gourdes, printed from old plates of 2 Gourdes with the surcharge, similar to the ones at present in circulation, we could complete delivery of these in about six weeks, provided the order is placed within a few days.

2nd.- Should these 5,000,000 Gourdes be printed in their definitive form, in the denomination of 10 Gourdes, or 500,000 Notes - as we are asked to furnish, it will not be possible for us, owing to the congestion in our plant at present and which will continue for the next five months, to complete these until March 1st, 1920.

Attention Mr. R. L. Farnham, Vice-President

Banque Nationale de la Republique d'Haiti,  
60 Wall Street, New York City.

Dear Sirs:-

As requested in your favor of today's date, we have advised the General Superintendent of our plant at Hunt's Point, by telephone, that one of the officers of the U. S. S. "Shubrick" will wait upon him at noon today to give the necessary instructions regarding delivery and to accompany the shipment of Gourdes to Pier No. 96 North River, where they will be loaded on the "Shubrick".

The shipment is ready and will, we trust, be delivered to your entire satisfaction.

Yours very truly,

Vice-President.

CGC/B

P. S. Since writing the above, we find that the notes are to be delivered to the pier at the foot of 96th Street instead of to Pier No. 96 and have governed ourselves accordingly.

Attention of Mr. J. Claudet, Vice President

Gentlemen:

Referring to the conference between Mr. John A. Mc Ilhenny, Financial Advisor to the Republic of Haiti, and Mr. J. Claudet, Vice President of your Company, on the first inst. concerning the execution of two and one half million definitive engraved gourde notes of the Banque Nationale de la Republique d'Haiti in denominations of Ten Gourdes, and to the conference today between the undersigned and Mr. Claudet on the same matter, you hereby are instructed to immediately take the steps necessary to finish up and print and deliver to the Banque Nationale de la Republique d'Haiti

250,000 Notes of Ten Gourdes

making a total of 2,500,000 Gourdes.

In respect of definitive notes of other denominations which the Banque proposes to issue and the dies for which, you have prepared, you will receive instructions later.

The signatures to be placed on the die of the Ten Gourde Note will be the same as those on the surcharged notes previously executed by you for the Banque, unless you are notified to the contrary.

Attention Mr. R. L. Farnham  
Vice President

Banque Nationale de la Republique d'Haiti,  
60 Wall Street,  
New York.

Dear Sirs:-

DEFINITIVE NOTES

We have your letter of December 2nd and, in accordance with your instructions, have entered your order to print immediately 250,000 Notes of 10 Gourdes each, making a total of 2,500,000 Gourdes, which we will try to get ready at the earliest possible date.

The signatures on this issue are to be the same as the ones appearing on the surcharged notes previously furnished you. Should there be any change in one of the signatures we would ask you to kindly advise as as soon as possible so as to avoid any delay.

All the notes that have heretofore been furnished to the Bank were delivered in sheets of 5 on. Also each series was made up of 250,000 notes, with the series letter changing every 250,000 notes.

On this present order we propose to deliver all the definitive notes cut singly and put up in packages of 1000 notes each. Also, we would ask you to inform us of how many notes you desire to have each series made up and whether you wish us to show a series letter. This being an entirely new issue, to be

handled by the Bank exclusively, you may have some preference in the matter of numbering and the series letter. Our usual way of doing is to make up each series of 1,000,000 notes, preceding the same with a letter,- "A" for instance,- changing said letter every 1,000,000 notes.

When you originally placed the order for the Definite Notes ( we refer you to your letter of November 15th,1916) it was for 500,000 of these notes and if you will refer to our letter of May 27th,1919, we gave you at that time a revised price,based on the market conditions at that time, in quantities from 100,000 up to 5,000,000 of any one denomination. These will be the prices at which your orders will be entered,- although only two weeks ago we were advised of a further advance of 10% on the paper. It will be therefore to your interests to decide at the earliest possible moment regarding the printing of the complete issue, in case there should be a further change in the market.

Please let us hear from you at the earliest possible date and oblige,

Yours very truly,

Vice President.

December 11th, 1919.

Attention Mr. R. L. Farnham, Vice-President

Banque Nationale de la Republique d'Haiti,  
55 Wall Street, New York City.

Dear Sirs:-

Confirming our conversation of yesterday with reference to notes of the new issue which we are at present preparing, we would recommend that the One and Two Gourdes Notes be numbered in Series of 1,000,000 each, viz - A0000001/A1000000, changing the letter before the number for each Serie but omitting letters I and Q.

The Ten and Twenty Gourdes Notes we would propose numbering in Series of 500,000 each, viz p A000001/A500000, changing the letter for each Serie and similarly omitting the letters I and Q.

On the understanding that you will leave these details to our judgment, we have accordingly provided for the numbering of the 250,000 Notes of 10 Gourdes each which we are at present preparing A000001/A250000.

It is also understood that all the notes of the new issue are to be delivered cut in single notes, banded in lots of 100 notes and packaged in lots of 1000 notes, with a label on the outside of each package, showing

the contents.

Trusting that our understanding on these matters is correct,

we are

Yours very truly,

Vice-President.

Dear Sir:

I have to acknowledge the receipt from your company of the following proofs:

|----|--------|------|-----|------|
| 1  | Gourde | face | and | back |

together with specimen of paper which you suggest using for this new issue- 29 lb. banknote (No planchett).

I have been authorized by cable by the Haytian Government to accept the plates and the paper submitted if they meet with my approval. I therefore, formally by this letter give you my approval of the plates and the use of the paper for the printing of 10,000,000 of Gourdes.

As stated to you in my last interview, the printing of 2,500,000 <sup>Gourdes</sup> of 10 Gourde notes is a very urgent necessity for the Haytian Government at this time, and I very earnestly request that the utmost effort of your company be made to print this amount of Gourdes on or about the 15th of January, or as soon thereafter as is possible. In making this request I feel at liberty to say that the State Department of the United States is greatly interested in this matter and will view with gratification your compliance with it.

I have the honor to be,

Yours respectfully,
